Businessman: Potential for Purchasing Ability are increasing until the End of Year

Although some developing countries are experiencing global crisis problems, it seems that so far Indonesia's economic condition is no need to be worried. Even it's stated that the consumers' purchasing ability potentials so far have increased. "The consumers' purchasing ability potentials in the future are still strong, but the tendency of the people to save is still in the future," stated Deputy Chair of the Indonesian Chamber of Commerce (Kadin) for Transportation, Carmelita Hartoto when confirmed on Tuesday (9/11).
